

(i) magnifying the video image data displayed in step (c) by selecting a second predetermined number of cells on the EPG, the second predetermined number being of less magnitude than the first predetermined number, and displaying the video image data stored in step (a) for the cells in the second predetermined number of cells, and

(ii) reducing the video image data simultaneously displayed in step (c) by selecting a third predetermined number of cells on the EPG, the third predetermined number being of greater magnitude than the first predetermined number, and displaying the video image data stored in step (a) for the cells in the third predetermined number of cells.

26. (Newly Added) The method of claim 25 in which

step (a) includes storing a broadcasting channel number and a broadcasting time for each of the plurality of cells; and

step (b) includes selecting the first predetermined number of cells, each having a similar broadcasting time and arranged in a tunable sequence of broadcasting channel numbers.

Respectfully Submitted,

Allan Rainer, Reg. No. 19,717
